Make plots

Pie chart for total clients per node of network (useful for shared networks)

Pie chart for total bytes per node of network (useful for shared networks)

Pie chart for requests per node of network (button to show total, successful or unsuccessful, useful for shared networks)

Bar chart for clients per month (choose whichever subset of nodes of network if shared network)

Bar chart for bytes per month (choose whichever subset of nodes of network if shared network)

Bar chart for total requests per month (choose whichever subset of nodes of network if shared network)

Bar chart for clients per year (choose whichever subset of nodes of network if shared network)

Bar chart for bytes per year (choose whichever subset of nodes of network if shared network)

Bar chart for total requests per year (choose whichever subset of nodes of network if shared network)

Map for clients per country (choose whichever subset of nodes of network if shared network)

Map for bytes per country (choose whichever subset of nodes of network if shared network)

Map for total requests per country (choose whichever subset of nodes of network if shared network)
